17th March 2016

**NOTIFICATION OF POSITIVE
SWAB**

On Wednesday 2nd March 2016 Stewards informed Mr. Robert Wombwell that the urine sample taken from the greyhound GOLD ROCKER at the Mount Gambier race meeting held at Mount Gambier on Friday 22nd January 2016 based on arsenic concentrations measured in studies on greyhound urine samples had been analysed and constituted an unusual or abnormal amount.

The reserve portion of the urine sample was tested and the presence of ARSENIC was confirmed.

Mr. Wombwell was advised of the analyst's results on Thursday 17th March 2016 and is required to attend an inquiry, together with any witnesses that may assist for an inquiry by the Stewards into the circumstances relating to the obtaining of the positive urine sample, this will be arranged for a date to be fixed.
