

8 November 2016

NOTIFICATION OF POSITIVE SWAB

On Sunday, 16 October 2016, Trainer Mr. Robert Halliday was informed that the greyhound HOMER had shown the presence of COBALT in the urine sample taken from that greyhound at the Greyhound Racing SA race meeting held at Mount Gambier on Friday, 9 September 2016.

The reserve portion of the urine sample was tested and the presence of COBALT was confirmed in excess of the threshold of 100ng/mL, according to GAR 83(10).

Mr. Halliday is now required to be available for a Stewards inquiry, together with any witnesses that may assist, into the circumstances relating to the obtaining of the positive urine sample. This will be at a date to be fixed.

As a result of this inquiry, charges may be laid pursuant to GRSA Rules of Greyhound Racing.

He was further advised that if he does not attend this inquiry it may be held in his absence and charges may be laid pursuant to GRSA Rules of Greyhound Racing.
